

Sulfathiazol-BSA Conjugate

Catalog number: 50029

Unit size: 1 mg

Product Details

Storage Conditions	Freeze (<-15 °C)
Expiration Date	12 months upon receiving

Chemical Properties

Appearance	Liquid
------------	--------

Applications

Sulfathiazol-BSA conjugate is used for developing anti-sulfathiazol antibodies that are typically used in an ELISA assay. The anti-sulfathiazol antibodies may also recognize sulfatroxazol, sulfamethoxazol, sulfamethiazol and sulfisoxazole. Sulfathiazol-BSA conjugate has multiple sulfathiazol molecules on each BSA to maximize its immunogenicity.
