Anti-gapA

Source: Goat**General description:** Goat polyclonal antibody to gapA from Microbacterium sp.**Alternative names:** type I glyceraldehyde 3-phosphate dehydrogenase, GAPDH antibody**Form:** N/A**Immunogen:** Recombinant peptide (176 aa – stop) derived from Microbacterium sp produced in E. coli.**Specificity:** Detects endogenous levels of gapA by Western blot.**Reactivity:** Reacts with Microbacterium proteins

| Sample | WB | IHC (F) | IHC (P) | IF | ELISA |
|----------------|-----|---------|---------|----|-------|
| Microbacterium | +++ | ND | ND | ND | ND |

+++ excellent, ++ good, + poor, ND not determined

Usage:

WB: 1:500-1:2,000

Storage: Store at -20 C for long-term storage. Store at 2-8 C for up to one month.**Special instructions:** Avoid freeze/thaw cycles..

Anti-gapA Ab at 1/1,000 dilution; lane with 30 ng of recombinant fusion protein (176 aa – stop) from *Microbacterium* sp; rabbit polyclonal to goat IgG (HRP) at 1/10,000 dilution;

For research use only, not for diagnostic use

SICGEN's Proprietary Immunogen Policy

In order to produce high specific antibodies SICGEN has invested a lot of time and effort into selecting immunogen sequences. SICGEN has decided to protect this information by not publishing it on the website. However, these sequences are available on request.
