

**1X4 Color™ V405 Dye Set**

Catalog number: 8000

Unit size: 1 Set

**Product Details**

---

Storage Conditions Freeze (&lt;-15 °C), Minimize light exposure

Expiration Date 12 months upon receiving

**Chemical Properties**

---

Appearance Solid

**Applications**

---

1X4 Color™ V405 Dye Set provides a set of highly fluorescent dyes for multicolor applications. All the 4 dyes of this set are well excited with the Violet laser (405 nm) with 4 distinct emissions around 450, 500, 550 and 610 nm respectively. This unique dye set enables the development of fluorescence instruments and devices with a single laser (e.g., Violet laser or a LED) for multicolor detections.
